You count! Everyone counts!

The Census Bureau will send you a letter asking you to complete the Census. You can fill out your Census form by mail, phone, or online.

Your answers to the Census will determine how the government spends billions of dollars in Massachusetts. That is about $2,500 in public and social services, including healthcare and education, per person per year!

Need help? Call your local library or the **Lawyers for Civil Rights' Census Hotline** at 617-482-1145

FIVE CENSUS TIPS

1. Answer Census questions truthfully.
2. Information you give to the Census is **confidential**. The Census cannot share individual household information with anyone, including police, immigration, landlords or employers.
3. The Census will not ask any questions about citizenship or immigration status.
4. Please note that the more questions you leave blank, the more likely a Census worker is to follow-up with you in person.
5. Census workers will clearly identify themselves with an official Census badge.
