

WEEK FOUR EXERCISE

Jorge's I-130 petition was approved. It is now March 1, 2016 and the second preference priority date is current. Since Jorge was the beneficiary of a prior petition filed on behalf of his father, he is eligible to adjust status under INA § 245(i). Jaime qualifies as a derivative, but Nina has aged out. Use the Immigration Consultation Record (intake form) to calculate the number of persons in Louisa's household. Last year she reported earning \$41,000 on her 2015 federal income tax return.

In 2014 she reported \$39,500, and in 2013 she reported 37,750. She is currently expected to earn \$41,500 for 2016.

Please complete the I-864. Compare her current individual annual income for the number of persons in her household to the amount required in the I-864P (assume it is for 2016). Does she earn enough with her income alone or does she need to use assets or a joint sponsor?
